ESSAY TOPIC: IF I COULD INVENT SOMETHING NEW
WORD COUNT: NOT MORE THAN 500 WORD
FONT TYPE: TIMES NEW ROMAN; SIZE 13
DOCUMENT FORMAT: WORD OR PDF

If I had chance to invent something new which would be very beneficial for mankind? It would be a flying car, in the past people travelled only on a horse or just on foot. After car was invented it changed everything radically people started to use cars more than any other vehicle.

Nowadays, cars are the most common means of transportation the number of traffic jams has increased with the use of a great number of cars. Basically, that's why I would like to invent a flying car.

Firstly, my invention would help to decrease driver's stress caused by the traffic jams. As statistics shows traffic jams are increasing in big cities as well as small ones especially during business hours when everyone is in a hurry trying to get to their work place and unexpectedly encounter massive traffic jam. Some people would prefer to drive flying car instead of ordinary car, the combination of ordinary and flying car definitely would help to get rid of traffic jams.

Secondly, in the result of this invention there could be decrease of car accident sometime, people don't realize that they violate the law and break traffic rules because of a lot of reasons. They violate the laws because they are in a hurry. They are trying to overcome different traffic problems like road construction, Narrow Street, crowds of people, etc.

In my opinion there is only one solution to these problems flying car services should be available.

And finally, it would be a fun we have often met the concept of flying cars. In science fiction or Hollywood films obviously it is interesting and people would want to try it themselves.

In conclusion, I would like to change this stressful atmosphere. Actually people waste time in traffic jams instead of that they can spend more time with their family or friends this invention would be very beneficial for people to avoid stress and enjoy travelling.
