

**SCHOOL: JOLAS COLLEGE**  
**NAME: OKHARE DIA GLORIA**  
**CLASS: JSS 1**  
**ESSAY: IF I COULD EVENT SOMETHING NEW, I WILL HAVE INVENTED A MACHINE THAT DETECTS SEA ACQUATIC CREATURES LIKE MERMAIDS**

I wanted to event this because 90% of people in the world believes that mermaid's are superstitions that they don't exist.

And some myths also say's that Mermaid's are evil aquatic sea creatures that kills human beings with their evil powers.

With my finding I will prove to the world that mermaids are real and they good aquatic creatures.

And Mermaid have been said to be an half human and half fish creatures that lives in different parts of the world and stay in the Sea, Ocean and Rivers.

If I wanted to give my invention a very stupendous name called **THE AQUATIC TERMINOLOGIES DETECT.**

I gave it the name because thing under a particular topic is called terminologies and mermaids are aquatic creatures, and because the machine is for detecting the creatures. The benefits of the machine and what it attracts to a particular country.

Firstly, it attracts more inspiration on aquatic animals.

Secondly, it attracts mor people from other part of the world come to the particular country, it is mostly located at.

Thirdly, it makes people of the world know that they are good creatures.

Lastly, it makes the world a geographical place for all aquatic creatures to be taken care of and shown love and care to them.

Materials needed for the invention include Net, Fish foods, detect lamborine net, Alarm goggles, swim suit, Telescope, Tab, Gloves, Electric Shock etc.

Firstly, the net is used in matching the mermaids.

The fish foods are used to attract and distract the fish from blocking the pathway.

The detect is used to discover the presence of the mermaids.

The Alarm is used to make a sound when the mermaid is passing by.

The goggles are used to protect the eyes. The swimsuit are used to be able to swim in the sea.

The Lamorine is used to be able to drive in the middle of the sea.

The Telescope is used to see or search for the mermaid from far.

The tab is used for taking pictures.

**Note: It is only used when you were not able to catch the mermaids with the Net. The gloves are good to the hands. The electric shock is used to be able to shock any aquatic creatures trying to come Near the lamorine.**
