

IF I COULD INVENT SOMETHING NEW

If I could invent something new, it would be something beneficial to mankind, a Flying Car would be my dream invention. In the past people travel only on horses or using feet, after cars were invented, it changed everything totally. People started to use car more than any other means of movement. Nowadays cars are the most common means of transportation, the number of traffic jams has increased with the increase in the numbers of cars, basically, that's why I would like to invent a flying car.

Firstly, my invention would help to decrease drivers stress caused by traffic jams. As statistics shows, traffic jams are increasing in big cities as well as small ones, especially during business hours when everyone is in a hurry to get to their workplace, unexpectedly encounter a massive traffic jam. Some people would prefer to drive flying cars, instead of ordinary cars, the combination of ordinary cars and flying cars would help to get rid of traffic jams.

Secondly, in the result of this invention there would be decrease of car accidents. Sometimes people don't know that they violate the laws because they are in a hurry, they are trying to overcome different traffic problems like road construction or narrow streets. In my opinion there is only one solution to these problems, flying cars are the real deal.

Thirdly we have often met the concept of flying cars in science fiction or Hollywood films, obviously it is interesting, and people would want to try it themselves. I would like to change the stressful atmosphere, people waste time in traffic jams instead of that, they can spend more time with family and friends, this invention would be very beneficial to people to avoid stress and enjoy travelling. I strongly belief that flying cars would be an exciting invention, it may be expensive, but it will be an important investment for our lives. Just Imagine how wonderful it will be using this kind of transportation. I belief this invention will be a turning point to the way we see transportation it will bring our life a lot of benefits. This invention will change our life for the better.
