

NAME: UKORAH IFECHUKWU PRINCE

SCHOOL: IGBOBI COLLEGE, YABA, LAGOS

CLASS: JSS 2 A

TOPIC: IF I COULD INVENT SOMETHING NEW

If I could invent something new, it will be Edubank. Edubank is an educational app that aims at catering for academic needs of a Nigerian school child and beyond in cases of the British Curriculum which is common in these days. Having that the Federal and State Governments are not doing much to give a visible level of exposure and rewards to the students and Educational Practitioners; having that the course of education in Nigeria is getting meager. The app is also to cater for marketing and financial demand of the society which is now essential in the Nigeria Economy.

Edubank aimed at being an Educational App will bring and foster students and teachers of all categories together providing friendly, locust, flexible, schedule of a learner and a teacher while ensuring equity in reward and service to both practices. Edubank will aim to meet the nation's standard of education by attaining educational objectives, aims and goals of the Federal Government and worth Standard Educational Bodies; in science, arts, commercial and technology. To start with, it will begin with the science discipline of education, taking the first leap in basic and secondary school education locally and internationally wise. Edubank will be more like Meta, Edubank will be compared to Meta only that educational products and services will be it focus giving teachers and all educational staff holders the flexibility to use their services at low cost and maximized rewards for instance an educational service providers will be able to render his/her services and will be paid handsomely for his/her services while the students or learner gets the flexibility of time and quality of educational service equivalent to his token. The platform, Edubank Feasibility we have a physical presence in all regions of operations, for inspection, practical, licensing in all documentary aspect of Education services. In alliance with the laws of the land, this will help the Nigerian child or learners to go about this menial job and also be educated.

Edubank will compliment the areas of inadequacy of educational services and quality provided by the government and leverage with that, offered in outstanding private institution hence building a stronger educated community.
