Essay Topic:IF I COULD INVENT SOMETHING NEW.

To invent means to produce something that is useful for the first time through the use of Imagination or an ingenious thinking and experiment.

If I had a chance to Invent Something new,I would like to invent a waterproof book. what is the meaning of waterproof book? A waterproof book is a book that prevents water from entering our books.I would like to Invent it because times in the class or office one might mistakenly pore water and it will spread all over the table and on the books too, if the book is a waterproof water would not be able to penetrate and the book will remain intact without tearing,but if the book is not a waterproof one it will ruin the book and all important things writing in it.

Furthermore,when you are going to the beach or a swimming pool and you feel you want to carry your book to the place so you can read while having fun, if the book is waterproof it will not get thorn.because in the process of drying a book it might get thorn if the book is not waterproof.

In Conclusion if I had a chance to invent a waterproof book it will help reduce the tearing of book when water pour on them.
